

MICROWIPER**MULTI
BLUE**

TECHNICAL CHARACTERISTICS:

Material: 80% Polyester, 20% Polyamide

Microfiber resistant to bleach

Dimensions: 40 x 40 cm

Weighing: 270 g / m²

Weight: 45g

Dry absorption: 7 times its weight

Packaging: box of 60 units

PROPERTIES:

Dry, wet or pre-impregnation cleaning. Maximum scrubbing power and absorption of dust, grease and any engrained dirt. High resistance without deformation. Does not scratch or leave behind fluff, traces or prints. Resistant in daily cleaning tasks, especially with alkaline detergents or chlorinated products. The use of a color for each area of cleaning, avoids the risk of cross contamination. Ecological, reduces water and detergent consumption. Suitable for healthcare centres, hospitals, professional kitchens and hotels.

INSTRUCTIONS FOR USE:

Rub on the surface to eliminate the dirt. WASHING INSTRUCTIONS: do not use softener. Washing temperature at a maximum of 95° C, drying at a maximum of 60° C. Do not wash with other textiles. Do not mix colors.
