

VOYAGER 4

GHIBLI
FEEL THE PRO

Ergonomic and handy, it is
your ideal companion for
quick and easy cleaning!

Voyager 4 is the compact, lightweight and reliable backpack vacuum cleaner that provides the operator with comfort and unhampered movement for flawless, manageable and effortless cleaning.

VOYAGER 4: distinctive elements common to the entire range

The Voyager 4 series comprises four models: two with cable (Voyager 4 and Voyager 4 Fly) and two battery-operated (Voyager 4 BC Lithium and Voyager 4 BC Lithium Swift), all designed to provide an exceptional cleaning experience.

Backpack vacuum cleaners characterised by a compact and ergonomic design, they are worn just like a backpack, providing extreme freedom of movement during cleaning operations. They are particularly suitable for working environments where manageability is paramount.

Each model in the Voyager 4 range is equipped with a powerful, state-of-the-art brushless motor that ensures high suction performance for fast and effective cleaning.

Another distinctive feature of these vacuum cleaners is the large set of filters available, which offers numerous advantages:

- Motor protection for greater machine longevity;
- Maximum filtration to keep the surrounding space healthier and dust-free;
- Practical collection of extracted material inside the filters;
- Ideal capacity (3.3 l) for the type of work performed with backpack vacuum units.

Thanks to the transparent lid, it is also possible to check the amount of material drawn in and to empty it easily.

Excellent performance and ergonomic design make Voyager 4 the valuable ally for maximum cleaning results, especially in places where spaces are tight and cramped such as cinemas, theatres, planes, buses, trains and staircases.

STURDINESS

The plastic used to build Voyager 4 is distinguished by its extreme solidity and great resistance to impacts. The shoulder straps were selected for the high quality and robustness of the materials that they are made with. In addition, the handle at the top of the vacuum cleaner is designed to ensure maximum stability when lifting and transporting the machine. Every component has been studied and designed to make this vacuum cleaner a symbol of sturdiness and reliability.

ERGONOMICS

The design of Voyager 4 has been specifically conceived to ensure maximum ergonomics for the operator during work sessions: the back-pad and elastic waistband are designed to distribute weight evenly, reducing stress on the shoulders and back. Even during prolonged use, the machine provides optimal comfort, reducing physical exertion and making work less tiring. The shoulder straps are adjustable and padded to ensure maximum adaptability and comfort for every type of operator.

PRACTICAL AND MANAGEABLE

Voyager 4 is a practical machine: the vacuum cleaner is switched on and off easily and conveniently from the switch inserted directly on the belt. The operator has everything on hand, thanks to the accessory holders in the belt and shoulder straps. In addition, it is equipped with a convenient handle that means it can be carried easily and effortlessly. The operator is able to perform the main cleaning tasks with extreme manageability thanks to the ability to work with great freedom of movement and to clean even the most hard-to-reach places, without the slightest effort, thanks to the convenient telescopic tube and the wide selection of accessories supplied as standard, suitable for every need.

TOP PERFORMANCE

The brushless motor, powerful and quiet at the same time, ensures high performance and excellent cleaning results. The large set of filters supplied as standard (fleece bag, cloth filter and cartridge filter) guarantees a professional filtration system, allowing the operator to work safely.

VOYAGER 4

VOYAGER 4 FLY

PRODUCT IDENTIFICATION

MODEL	CODE
VOYAGER 4	15471210001
VOYAGER 4 FLY	15561250002

CABLE-POWERED

Voyager 4 is powered by a high-visibility, 15-metre-long detachable cable, which ensures coverage of the work area without the need to search for power sockets or use extension cords. The vacuum cleaner is equipped with a double strain relief system that includes a hook that the cable is threaded through to prevent pulling, and a specially designed cover to keep the IEC socket firmly inserted in the machine.

EVERYTHING WITHIN REACH

In addition to the accessory holders on the belt, the cable version has a large storage compartment on the side of the machine that provides even more space to store everything needed for cleaning.

FLY MODEL

Voyager 4 is also available in a FLY version, a machine specifically designed for fast and professional cleaning aboard aircraft when on the ground.

VOYAGER 4 BC LITHIUM/SWIFT

PRODUCT IDENTIFICATION

MODEL	CODE
VOYAGER 4 BC Lithium	15491210001
VOYAGER 4 BC Lithium Swift	15441210001

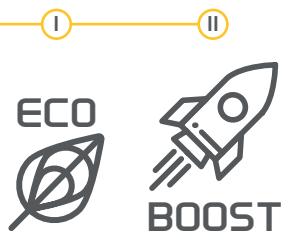

CORDLESS ALLIANCE SYSTEM (CAS)

CAS

The universal battery system developed from the most important partnership between manufacturers that allows batteries, chargers and different machines to be combined quickly and easily, guaranteeing maximum flexibility.

DIFFERENT SUCTION POWER SETTINGS

Two different suction power settings, easily selectable from the convenient remote control built into the belt: Eco mode, designed to reduce energy consumption without compromising cleaning efficiency, and Boost mode, ideal for tackling the toughest dirt.

BATTERIES AND CHARGERS

4 AH: autonomy 35 min.
(BC Lithium/Swift)

5.5 AH: autonomy 45 min.
(BC Lithium)

8 AH: autonomy 70 min.
(optional accessory)

Robust and resistant to impact and accidental drops, the CAS batteries used for the Voyager 4 cordless model are designed to offer versatility, great reliability and high performance to their users.

Lithium batteries that can be recharged at any time, even partially during short breaks in use, without being damaged.

The set of two 18V 5.5Ah Lithium batteries included in the standard equipment of the BC Lithium model provides a working autonomy of up to 45 minutes. The BC Lithium Swift model, on the other hand, is equipped with a set of two 18V 5.5Ah Lithium batteries that offers up to 35 minutes of autonomy. Optional accessories include a set of two 18V 8Ah batteries that provide a working autonomy of 1 hour and 10 minutes.

In addition, the convenient release button allows batteries to be removed and inserted quickly and easily.

The practical charger, equipped with two USB inputs for charging other devices as well, allows the batteries to be recharged quickly: only 40 minutes are required for a full charge.

STANDARD ACCESSORIES

FLEXIBLE HOSE Ø 32 MM
Cable length 1.15m. Ergonomic handle, ideal length so as not to get in the way while working.

Code 6010541

TELESCOPIC TUBE
Made of black aluminium, it lets you get into even the most hard to reach places.

Code MK-022

RIGID EXTENSION 0.5 M
A convenient black aluminium extension allows the machine to cover a larger working area.

Code 01-341

DUST NOZZLE Ø 32 MM
Equipped with small wheels for easy cleaning.

Code 2512594

DUST FLOOR NOZZLE Ø 32 MM
Suitable for treating hard surfaces.

Code 2511523

CURTAIN/SOFA NOZZLE Ø 32 MM
Suitable for treating fabrics.

Code 856000101

BRUSH Ø 32 MM
With bristles, to remove dirt even in the most stubborn places.

Code 856000061

CREVICE TOOL Ø 32 MM
For vacuuming even in the hardest-to-reach spaces.

Code 856000071

CARTRIDGE FILTER
With filter surface area 0.42 m².

Code 2512749

CLOTH FILTER
For maximum motor protection.

Code 6547000

FLEECE BAG
With a capacity of 3.3 l.

18V LITHIUM BATTERIES
Supplied as standard for BC models, they ensure an autonomy of 40 min. with the 5.5Ah version of the BC Lithium model and up to 35 min. with the 4Ah version of the BC Lithium Swift model.

5.5Ah: Code 7549000
4Ah: Code 7544000

8A BATTERY CHARGER
to recharge the batteries quickly (about 40 minutes for a full charge).

Code 7502550

OPTIONAL ACCESSORIES

HEPA CARTRIDGE FILTER
Made of H14-certified material, it captures even the finest dust and has a filter surface area of 0.42 m².

Code 2512751

FLEECE BAGS
Pack of 10 pieces of 3.3 l fleece bags.

Code 6650031

FABRIC FILTER BAG

Code 6547001

SAVE KIT
Practical kit consisting of carpet nozzle, hard-surface brush and telescopic plus tube, which reaches a maximum length of 1.35 m.

Code 5588010

LITHIUM BATTERY 18V 8AH
Optional for model BC (two batteries required) capable of providing a working autonomy of 1 hour and 10 minutes.

Code 7549001
